

## WE SEARCH OUR EVS VOLUNTEER

La Corne des Pâtures is a eco-responsible living space located in the heart of nature on the edges of the Loire in Baule, between Orléans and Blois in France.

<http://www.lacornedespatures.com>

Every day during the 100 days of opening, our tavern offers cultural programming to our users.

On Mondays a multidisciplinary show, Tuesday outdoor cinema, Wednesday youth show, Thursday improvisation, Friday and Saturday concert and Sunday family games.

The users of La Corne des Pâtures are very varied.

In May, the full team, civic service, volunteers are around the development of this common and federative project.

Prepare the infrastructures to install them again in the middle of Nowhere.

We operate thanks to solar energy and a controlled management of water.

Clean the ground, prepare the exteriors, communicate with partners and stakeholders of the project ...

When La Corne des Pâtures opens its doors again, a catering offer is accessible to the greatest number.

Meals served are cooked on site with organic and local products.

This cultural center was created in 2015 by 3 artists concerned about the environment and sustainable development

Mobilized around issues of cultural rights, participatory citizenship and art as a whole, we hope our place as an alternative spot where everyone can find their place.

We campaign to live better together.

We would like to welcome a volunteer who is sensitive to the environment, art and others. More than graduates, we are looking for someone with a desire to share to learn to discover.

Our volunteer must have a taste for shows, music, ecology, and enjoy living outdoors.

If you wish to apply, please send us an email ([lacornedespatures@gmail.com](mailto:lacornedespatures@gmail.com)) with your motivations to join us and if you had similar experiences.
