What is Youthquake II ?

The ESC project Youthquake II, stems from the desire to follow up on the relationships consolidated during the first edition of the strategic volunteering project Youthquake (2017-2020) by building active and solidarity-based responses to the new social challenges born also as a result of the covid19 emergency. The solidarity experiences represent an important example of non-formal learning both for the young beneficiaries of the experiences but also for the local host communities, as indicated by the Council Recommendations on the mobility of young volunteers in the EU, which will benefit from the presence, commitment and energy of young volunteers from different European countries.

Youthquake II, through the different actions proposed and the involvement of 50 EU volunteers, aims at enhancing the internal and marginal, rural and urban areas of central Italy through concrete actions of solidarity and volunteering in order to promote active citizenship itineraries for young and old inhabitants of those areas, in a local and international perspective. The impact that participation in the activities can have on the participants is linked to the volunteers' personal, civic, social and professional development. Through non-formal and informal learning experiences, volunteers can acquire useful skills that will allow them to chart their own course in society from an educational, human, civic and professional point of view.

Who is ARCS ?

ARCS - NGO association was founded in Rome in 1985 by Arci, the largest secular association for social and cultural promotion in the Italian Third Sector, founded in 1957 in Florence and present throughout the country.

For the assertion of peace and human rights and the elimination of all forms of poverty, injustice and social inequality ARCS practices: Education to world citizenship and peace; Cooperation, solidarity and international volunteering; Humanitarian aid and reception.

Who is the Hosting organization?

The city of Macerata (<https://www.comune.macerata.it/>) is located in the Marche Region, in Central Italy, and has just over 40.000 inhabitants, 7.329 of which (17.3% of the population) are young people aged from 15 to 30 years old. The Municipality is responsible for the management of its population and territory, including cultural heritage, social services and economic growth. Macerata can boast a rich and active social life thanks to the presence of a University of ancient traditions, an Academy of Arts and more than 150 associations, which enrich the offer of events, from the environment to culture, from entrepreneurship to volunteering. The 2016 earthquake has affected also our Municipality and it is still possible to perceive its effects in terms of housing problem, as well as economic and social ones, which have affected in particular the most vulnerable groups (children, elderly people and people with disabilities).

Among the many associations in Macerata, there is also the ESN Macerata, which offers a wide range of activities for Erasmus students and has declared its willingness to include our EVS volunteers in their activities. The volunteers will then have the opportunity to live in a lively and multicultural context.

Locations of this specific position will be:

- the Mozzi-Borgetti Library (<https://www.facebook.com/BibliotecaMozziBorgetti/>)
- Local Nursery Schools.

Macerata can boast an medieval city center with many interesting attractions:

- Piazza della Libertà, the main square, boasting several historical buildings, such as the Civic Tower with the Astronomical Clock, Lauro Rossi Theater, the Loggia dei Mercanti (a Renaissance Loggia) and university buildings.
- many Churches (Macerata Cathedral, San Filippo Neri, Santa Maria della Misericordia etc.)
- the Arena Sferisterio, a big neoclassical arena, hosting concerts and festivals, such as the well-known Macerata Opera Festival, a festival devoted to Opera
- the Mozzi-Borgetti Library, with its magnificent Old Rooms
- Palazzo Buonaccorsi, housing the main civic art museum and a Carriage Museum.

Moreover, from Macerata you can easily reach the seaside, as well as the Sibillini Mountains.
